

YOUR PREMIER STAINLESS STEEL DISTRIBUTOR

Offering top-quality products and unparalleled service for all your metal needs.

ABOUT US

Mirror Metals, celebrating 25 years in business, is North America's leading distributor of #8 mirror finish stainless steel. We provide high-quality materials to meet the unique demands of architectural and industrial projects. Our extensive inventory ensures fast delivery and reliable service for all stainless steel needs.

Logistics and Warehouse Capabilities

We own stock on hand to complete orders quickly and accurately. We're not drop shipping from another location or vendor. Our warehouse locations supply customers from the U.S. to Canada and Mexico.

With a comprehensive stock of stainless steel finishes, including 2B, #4, and #8 mirror finishes, Mirror Metals is equipped to handle projects of any scale. Our extensive inventory includes specialty architectural finishes, allowing us to accommodate diverse applications and quick turnarounds.

Locations

Now with two locations—expanding our footprint to deliver to customers from coast to coast.

Oxnard, CA

We manage all logistics and shipping for the West Coast from our Southern California Headquarters.

Surgoinsville, TN

Our newest location in Northeast Tennessee offers 50,000 square feet of space to hold and ship material to our clients in the Midwest and East Coast

Mirror Metals Vision

Working together, our mission is to provide our customers with uncompromising quality and innovative products. We strive for continuous improvement by consulting with mills around the world on research and development.

Work hard

Always be a helper

Solve every problem we can

STAINLESS STEEL

Unmatched Durability and Versatility

Known for its corrosion resistance and low maintenance, stainless steel is a preferred choice across industries, from architecture to manufacturing. Its versatile finishes and adaptability make it ideal for projects seeking a sleek, contemporary look while ensuring long-lasting performance.
